Vimm's Lair

Introduction

"Hard to believe it's been two years since we stole back all the pages to the Thievius Raccoonus from that scoundrel, Clockwerk. Taking down the Fiendish Five was no easy task, even for a master thief. At least destiny threw me together with you two. Bentley, your intelligence keeps us one step ahead of the bad guys, and Murray, well, every raccoon needs a pal to mow down the enemies and your expert driving techniques ensures that Inspector Carmelita Montoya Fox never catches up with us... unless we want her to."

"You can count on us, Sly. The Murray-nator is here!!"

"Sly, it looks as if the Klaww Gang has stolen the Clockwerk parts from Interpol."

"What?! We've got to get them back! Come on back..."

"That's right! Just wait 'til they get a taste of the 'Thunder-Flop'- it knows neither friend nor foe, only destruction!"

"Check out these moves to refresh your memory."

Pressing START during gameplay will open the Pause Menu. Use the left analog stick or directional button to cycle through your choices and press ✕ to confirm your selection. Press ○ to return to the game or previous menu.

KEEP PLAYING

"The Murray' never backs down from action! Let's go!"

QUIT GAME (WHEN AUTO SAVE IS NOT ACTIVE)

"OK, big guy. You sure are good at throwing your weight around. Quitting on the other hand is not in the Cooper's vocabulary. A Cooper never leaves a job unfinished. But even a raccoon needs a rest now and then and so does his buddies. Right, Bentley?"

SAVE AND QUIT (WHEN AUTO SAVE IS ACTIVE)

"That's right, Sly. The 'Save and Quit' option will quit your current game. If you're not ready to go, you'll get another chance to head back into the action, but even if you quit, your progress will automatically be saved."

Options

"Sly, Murray, make sure you are familiar with all of the Options, as they are an essential part of a thief's repertoire."

CONTROLS

"For a quick refresher on each of our controls, just head to the Control screen."

"Relax little buddy!"

LOAD GAME

"Hmmm. Now this one's pretty simple. The Load option allows you to resume a saved game, or load a different saved game file during gameplay."

SAVE GAME

"I've developed a top secret process where your progress is automatically saved after each job, but it is also possible to manually save your progress at any time by choosing the 'Save Game' option. When you manually save, your progress is saved up to your last completed job."

SOUND OPTIONS

"To adjust the volume levels for the Sound Effects, Music and Speech, as well as the Sound Format. ***Sly 2: Band of Thieves*** supports Mono, Stereo, and Dolby® Pro Logic®II Surround Sound. Press ✕ and use the left analog stick or directional button to set the level."

THIEF CONTROL OPTIONS

"To invert or change the controls for the Binocucom, Turrets or Vibration function, press ✕ to toggle ON/OFF. The default is set to OFF."

"To center the screen, use the directional button or left analog stick to adjust the cursor, and press the ✕ button to confirm and the △ button to cancel."

Job Help

"Listen you two, choose the Job Help option to access our current job objectives and goals. We can also check out the complete list of jobs that are available to us, as well as the ones we've already completed. Use the left analog stick or directional buttons and ✕, □ or ○ to navigate the menus. Pressing △ will get us back into the game."

"Don't worry guys, the Murray-nator's got you covered!"

Abandon Job

"If things are going awry, or if we need to rethink our objectives, or we just want to take a break, choose the 'Abandon Job' option from the Pause Menu. Just press □ for "Yes" and △ for "No." Just remember, if we do so, we lose everything: our progress and all the loot we've 'collected'."

"The Coopers aren't known for abandoning anything."

Jobs

JOB START BEACONS

"Sly, I've set up special job start beacons all over the city and they can be spotted when we use our Binocucoms or by pressing L3. These beacons will locate job start points and objectives. To locate a beacon, press R3 and then scan the environment with your Binocucom. Once you've located a beacon, make your way to it. It will stay lit up for a few seconds to help you keep your bearings!"

"We Coopers have a sixth sense of direction... but it's good to know I have a back-up."

"I get one too?! What other gadgets do I get?"

OBJECTIVE BEACONS

"Once you've started a job, you can use your Binocucom to locate objective beacons. If the job requires you to complete a task, the beacon will guide you."

Vimm's Lair

The Binocucom

"Well, Murray, I developed special Binocucoms for each of us. Just press L3 to use it. If you want to scan the environment, use the left analog stick or directional buttons and to zoom in and out move the right analog stick ↓/↑."

"Looks like you've made some pretty hefty modifications to mine since the last time I used it, Bentley."

"That's right, Sly, in addition to being able to zoom in and out and scan, your Binocucom has a Spycam feature so you can snap proper pictures using R1."

"Yes, I wouldn't want to take an improper photo of that fox, Carmelita."

"Ahem... Sly. Pay attention! OK, my Binocucom has a powerful scope to help me aim and shoot my Sleep Darts. Center the enemy in the scope and then press R1 to fire. A direct hit will stop a thug in his tracks and keep my shell from getting bruised!"

"What does mine do?"

"Sorry Murray, I didn't have enough time to modify yours with a special function...but I did change the color. Uh...it's purple."

"'The Murray' doesn't require any other assistance. The 'Thunder Flop' is the only language the bad guys understand!"

Episode Menu

"Sly, you can access this menu to load the current episode or any previously completed episodes. This is especially helpful if you want to revisit an area and search for missed clue bottles, collect more coins, and grab extra loot!"

PICKPOCKETING

"Now that we've all reviewed the basics, let's get to the fun stuff! A master thief is only worth his fortune in loot. It's all about pickpocketing!"

"That's true, Sly. Sneak up behind an enemy and press ○ to pick his pocket with your trusty cane. It may take a couple attempts to find what you're looking for, so be persistent!"

Stealth

"Now, like any modern thief of the highest caliber, you have three different stealth moves at your disposal. Use them wisely Sly, as they are your best weapon!"

"I'm my own best weapon, Bentley."

"And I'm your best back-up weapon, right Sly!?"

"You got it."

SNEAKING

"Sly, sneaking is essential for making your way quietly around the city, so make sure to stay alert. Know where guards and enemies are at all times!"

"I never was one for the direct approach!"

"Alright Sly, I know you haven't forgotten how to sneak, but let's refresh your memory just in case things get tricky out there."

"Oh come on, Bentley. Sneaking is my middle name!"

"Mine too! On to the good stuff!"

THIEF METER

"We have all developed super-heightened stealth senses that will help us sneak up on unsuspecting enemies. The thief icon located in the top left corner will pulse yellow sound waves to let us know when we need to be quiet and not run. If our cover is blown, the thief icon will flash red, indicating that we've been spotted and the enemy is on to us."

"Guys, don't forget that running is a sure fire way to alert an enemy to your presence. If you want to sneak around without getting caught, be sure to move very slowly."

CRAWLING

"When you see glowing sparkles under a table or passageway, you and I can walk up to it and press ○ to crawl underneath it. Sorry Murray, you're just too big! Sometimes this is the best way to avoid the beam of a guard's flashlight or the path of an alarm's laser beam. Are you listening, Sly?"

"Hey, what do I look like... a rookie? I'm a Cooper!"

"Just checking. We need to be extra careful and have an airtight plan if we're going to finish the job. Trust me... it's all part of the game."

WALL/LEDGE SNEAK

"When you see glowing sparkles on the ledge of a building, all three of us can press and hold ○ to sneak around on a ledge. While holding ○, move the left analog stick in the direction of the ledge to sneak across it. This way, we'll have a better chance of reaching our goal without being noticed."

"OK, let's go!"

Vimm's Lair

Climbing

"Sly, remember that when you see blue sparkles on a pipe or ladder, it means you can climb up it. Stand next to it and press ● to attach onto the object, and then use move the left analog stick to climb up and down."

"No problem."

Water

"Listen up Sly. As you already know, we can only step into shallow water. Fall into anything above our heads and we'll lose some health! We should have taken those swimming lessons back at the orphanage."

"We raccoons don't like water anyway!"

"Tell him about the Safe House Bentley!"

"OK, OK Murray. I was just getting there."

Safe House

"The Safe House is the hub for all our planning and preparation. You can enter it at any time to get some rest, change playable characters, and purchase and sell items through ThiefNet. You can locate the Safe House from the city at any time with your Binocucom by pressing R3 and viewing the yellow beacon that points directly to it. Remember Sly, if you choose to enter the Safe House while on a job, the job will be cancelled and you will have to start from scratch."

Switching Characters

"These jobs are the biggest we've ever attempted so teamwork is critical. Each of us will have to bring our skills and strengths and work together to pull off these jobs. There are three different job start beacons that show which one of our skills is needed for that particular area.

"That's right, pals, because my strength alone is a force to be reckoned with!!"

ThiefNet

"Just so you know Sly, we can only access ThiefNet when we are at the Safe House."

"What is ThiefNet?"

"ThiefNet is a super-secret website where we can purchase a variety of high-tech gadgets and powerups with the coins and loot we 'acquire' in the field. We can also sell our loot for more coins here to boost our funds. To log on, use the left analog stick or ⇐ and ⇒ directional buttons until you see the ThiefNet

store on the scrolling text bar. Press ✕ to logon to ThiefNet. You'll see all the current items available for purchase. If you want to sell the loot you have, press ⇒ on the left analog stick or directional button ⇒ to move to the Sell Loot screen. To purchase an item, make sure you have enough coins, then select the gadget and press ✕ to confirm. You will be asked again if you want to make the purchase, so you'd better make up your mind. Press ● one last time to finalize the transaction and the item is yours (or, you can always press ▲ to cancel the purchase, if you change your mind). Of course, high-tech thievery isn't cheap, so make sure to collect all the coins and loot you can while out on a mission. That goes for all of us!"

"You know Bentley, we could have snatched all the loot in town by now."

"Yeah! The Murray' is itchin' to head out and deliver his own brand of two tons of fun!"

"OK guys, we're almost done. There are just a couple more things you really need to know."

The Gadget Grid

"Gadgets and powerups that are bought from ThiefNet can be equipped from the Gadget Grid. To access the Gadget Grid, press SELECT during gameplay. Here you can assign and equip up to three items or powerups to L1, L2 and R2. To do so, just highlight the item on the Grid using the left analog stick or directional buttons and press one of the three buttons to assign that item to a location."

Gadgets and Powerups

"Guys, there are a bunch of different gadgets and powerups that we will be able to purchase through ThiefNet. In fact, new items are added all the time! Make sure you check back as you collect the coins and loot, as we're going to need all the help we can get against the Klaww Gang!"

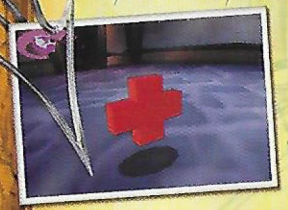

"Here's a list of a few of these items:"

SLY	BENTLEY	MURRAY
Smoke Bomb	Trigger Bomb	Fists of Flame
Combat Dodge	Size Destabilizer	Turnbuckle Launch
Stealth Slide	Snooze Bomb	Juggernaut Throw
Alarm Clock	Adrenaline Burst	Atlas Strength
Paraglide	Health Extractor	Raging Inferno Flop
Silent Obliteration	Hover Pack	Berserker Charge
Thief Reflexes	Reduction Bomb	Guttural Roar
Feral Pounce	Temporal Lock	Diablo Fire Slam

Vimm's Lair

A Few Cooper Clan Tips...

"There are a few things you should always remember when out in the field, as my father always used to say."

Health

"Keep an eye on your health. We might be master thieves but we're not invincible – even you Murray. You don't even want to know what happens when your health meter is completely depleted. Get more health from defeated thugs or striking objects."

Gadget Power Meter

"If we fail, die, abandon or go back to the Safe House, our gadget's power meter will be fully replenished. One thing to remember: we will replenish our gadget power meters slightly by picking up any Health."

Coins and Loot

"Ahh, this is what we Coopers live for. Make sure to steal and collect all the coins and loot you can find. Not only will we need the funds to buy gadgets and powerups, but taking treasure out of the Klaww Gang's pockets and lining ours is what thieving is all about. Coins, loot and paintings can be uncovered in a variety of places and ways, including taking them from defeated thugs, by breaking objects, finding them stashed or left in and around the environment."

Clue Bottles

"My intel tells me that these bottles may hold combinations to the Klaww Gang's secret vaults! Once all of the bottles have been gathered, I can analyze the important information inside to unlock their secrets."

"Now you're talking my language. Tell me more about these vaults!"

Vaults

"The Klaww Gang have been hoarding some top secret stuff inside their vaults and even I don't know what's inside! Of course, you'll have to find the location of each safe. When you do, just approach the blue sparkles in front of the safe and press ● to engage the combination lock. You can use the left analog stick or directional buttons to move your hand around the combination keypad and press ✕ or ● to choose each number."

"Sly, I think we should know what we're up against when we're out in the field. In addition to the Klaww Gang and their goons, something tells me you didn't forget about Inspector Fox, but did you know that she's got a new partner, Constable Neyla? I hacked into Interpol's files and downloaded their dossiers.

Inspector Carmelita Montoya Fox

Carmelita is a fourth generation cop working for Interpol. Fruitlessly hunting the Cooper gang for years (and always one step behind), she's never managed to catch them. Her interest in Sly borders on obsessive, and it's possible there's more to it than meets the eye. Carmelita is also very black and white in her outlook on crime and criminals. Everyone who breaks the law, from jaywalking up to murder, is a criminal and should be brought to justice. She is also a very emotional woman who has to work constantly to keep her temper in check.

"Ah, the ever-lovely and unpredictable Carmelita Fox. She and I have shared quite a few arresting moments over the years."

Constable Neyla

Neyla grew up a poor child in New Delhi and scammed her way into an exclusive British university. While there, she used her strong powers of persuasion to create a homework ring of other students to do her work for her. When the ring was broken and she was discovered, the authorities were so impressed with her skills that they offered her a job at Interpol. They believed she could "get inside the head of the criminal element." Constable Neyla is a very charming person who is capable of instilling trust in anyone she speaks with.

"Constable Neyla sounds very interesting. I'll have to keep my eye on her."

"Sly, pay attention and stay alert!"

The Contessa

A world renowned criminal psychologist, she's law enforcement's premiere prison warden. Her pioneering use of hypnotherapy has produced some good results and subsequently earned her a prominent position within Interpol. Normally the Contessa can be found in her rehabilitation center in Prague, where she works tirelessly to cure thieves of their "criminal impulses."
